## “IN HIS IMAGE”

*by Dr. Samuel Belkin*

In his new book, the eminent president of Yeshiva University seeks to explain the principles which underlie Rabbinic Law and shape the philosophy and practices of Traditional Judaism in terms meaningful to the contemporary reader. Through a close examination of biblical, talmudic, and post-talmudic sources, Dr. Belkin underscores two basic tenets of Judaism: the religious doctrine of the sacredness of man, and the moral concept of the infinite worth of the individual.

*In His Image* will be published by Abelard-Schuman on October 26, 1960. For copies and information please contact “Studies in Torah Judaism,” c/o Dr. Leon Stitskin, Yeshiva University, 186th St. & Amsterdam Ave. New York 33, N. Y.
